GAINESVILLE, FLORIDA, SUNDAY, MARCH 22, 1908

TEN CENTS A WEEK

SHOT WIFE AND SELF

Sensational Tragedy Occurs at Milwaukee, Wis.

DYING MAN TELLS STORY

George Willoughby, prominent member of the Methodist Episcopal Church, shot his wife dead and then shoots himself.

Milwaukee, Wis., March 21.—Geo. Willoughby, manager of the Jewett & Sherman company, coffee and spice mills, Friday shot and killed his wife, Florence Willoughby, at their home on Prospect avenue. Willoughby then fired two shots into his own breast and is not expected to recover.

Willoughby confessed to the police. The couple last evening attended a social at the Park Place Methodist Episcopal church, where both were prominent workers, and where Mr. Willoughby also taught a Sunday school class.

Upon their return home they quarreled.

While Mrs. Willoughby was asleep the husband chloroformed her and then shot her behind the left ear, causing instant death. He then shot himself twice in the breast, the bullets piercing his lung but missing his heart.

Tells Story to Police.

Willoughby told this story to the police: "I married my wife in Ludington, Mich., twenty years ago," said he. "I did not love her but I married her mostly out of sympathy, she being a poor woman. We frequently quarreled. Mrs. Willoughby was insanely jealous of me.

"Four years ago while I was on my way to New York I met a woman on the train. Our acquaintance ripened into love. Then for the first time I realized I had met a woman I really loved. This woman also was living an unhappy life. Her husband was cruel to her and soon after I met her he deserted her and her two small children. I then began to support her. We became intimate and have been so for several years. Two years ago she obtained a divorce and since that time I have been providing for her and her children. She is now living in Chicago.

Planning for Many Months.

"For many months I have been planning. I began to collect chloroform. I bought it in small lots and began to keep it until I had a large bottle of the drug.

"I decided to end it all this morning. After my wife had fallen asleep I obtained the chloroform and then I shot her. I then fired two shots into my breast, intending to shoot myself in the heart, but I failed."

Willoughby was fifty years old. His wife was three years his junior.

Vessel Went Ashore.

Jewett, Fla., March 21.—The English tramp steamer Verbeem, Captain Blana, bound for Vera Cruz, Mexico, and coal laden, ran ashore on the rocks off the Florida reefs off Redfish Key at 3 p. m. on March 15, and got clear Tuesday at 8 a. m. Captain Stickney and Sayer, with a wrecking crew, lightened her by throwing overboard about 500 tons of coal, after which she floated and proceeded for her destination. Damage to the hull, if any, could not be ascertained until a survey is had.

Regarded as Favorable Move.

Washington, March 21.—The supreme court of Germany in several decisions recently handed down has held bankers liable for advice given their clients as to investments. This is regarded in a report to the state department as a decided step forward in placing the banking business on a solid and responsible foundation.

British Steamer Overdue.

Plymouth, Eng., March 21.—The British steamer Acon from Sierra Leone March 1, with 154 men and women, including a detachment of a West Indian regiment on board is three days overdue. Much anxiety is expressed.

TUNNELS COST \$90,000.

Last of Pennsylvania Railroad Tubes Cut Through on Wednesday.

New York, March 21.—Although the last of the four Pennsylvania railroad tubes under the East river was cut through on Wednesday night it was announced Thursday on authority of the Pennsylvania railroad officials that the tubes will not be put into active service for nearly two years.

When the iron castings are installed and the two-foot layer of concrete is in place, the four tunnels will be closed for many months while work is progressing on the Pennsylvania's terminal station in Manhattan. No passenger trains will be run through the tubes until the entire system is ready. The two Pennsylvania tubes under the North river have not yet been entirely concreted, although they were cut through many months ago.

It was stated Thursday on good authority that the entire tunnel system, with its terminals at Long Island City, Manhattan and Jersey City, will have cost the railroad about \$90,000,000.

GOOD NEWS FOR EASTER TIDE.

Bermudian Crop of Lilies Unusually Large This Season.

New York, March 21.—Good news for the approaching easter tide was brought from Bermuda Thursday by the steamer Bermudian.

The crop of easter lilies on the isle, it is stated, is unusually good and early preparations are being made to harvest the buds. When the Bermudian makes her next trip, April 17, she will bring about 10,000 boxes of lilies, each box containing five dozen buds and selling at the pier at from \$3.50 to \$6 a box, according to the length of stem.

Last year the crop of this Bermuda easter flower was a practical failure, and the retail price of the blossoms here was from \$1 to \$1.50 each.

Dealers say that the quality and quantity of the present crop indicates a probable cutting in two of these rates for the current season.

BULGARIANS IN DISTRESS.

Came to United States But Are Unable to Find Employment.

Denver, Colo., March 21.—Pinched by hunger and unable to earn money with which to relieve their wants, 200 Bulgarians Thursday sent a petition to Governor Buchtel asking him to use his influence toward getting them employment, or to send them back to their European homes.

The men were brought here shortly before the recent financial flurry hit the country and some had been working only a few days when they were laid off. It is believed that some of the men were induced to leave Bulgaria by immigration contractors in violation of the laws of the United States.

The governor is unable to secure employment for them and the petition will be referred to the United States authorities for action.

FIRE LOSS OF \$60,000.

Many Persons Had Narrow Escapes at Minneapolis, Minn.

Minneapolis, Minn., March 21.—During a fire Thursday night at the Gamble-Robinson wholesale fruit company's building on North Sixth street which did \$60,000 damage, the lives of five members of the salvage corps and one police sergeant were endangered by the collapse of the third floor.

The collapse was followed by an explosion that blew out both ends of the structure. The men of the salvage corps were buried twenty feet into the street. All were painfully cut and bruised. Police Sergeant Russell was badly hurt by a door that had been blown against him.

First Trial by Jury.

Panama, March 21.—The first trial by jury in the canal zone was held Thursday in Cristobal. Of forty Americans drawn for jury duty, thirty-nine were present when the final jury had been selected.

Bishop Fowler Dead.

New York, March 21.—The Rev. Charles H. Fowler, bishop of the Methodist Episcopal church, died at his home late Friday.

FLOOD IS THREATENED

Ohio Valley May Have One Equal to That of 1884.

MUCH DAMAGE ALREADY DONE

Heavy Rains Have Fallen Almost Equal to Water Spouts and Side Streams Are Pouring Great Volumes of Water into the Ohio River.

Chillicothe, O., March 21.—The indications now are for a disastrous flood in the Ohio valley. The Baltimore and Ohio railway officials predict a freshet equal to that of 1884.

All traffic will be tied up. Heavy rains, equal to waterspouts have fallen throughout the valley and great damage has already been done. All the side streams are pouring great volumes of water into the Ohio river.

INDUSTRIAL PROGRESS.

Interurban Electric Railways Planned With Augusta as the Center.

Baltimore, Md., March 21.—At different points in the south are indications of reviving activity on a number of lines. Plans are underway looking to making Augusta, Ga., an important center of interurban electric railways. Contract has already been awarded for the Atlanta end of the line of the Atlanta and Augusta Electric road, which is to run through one of the most resourceful sections of the state.

The route of the Augusta and Columbia has been surveyed and work has been taken up between Alken and Columbia, S. C., cars being now operated on a stretch of more than 20 miles between Augusta and Alken. The plans now under consideration may result in a consolidation of these lines and the local line in Augusta and the construction, also, of a line between Edgeland and Augusta.

Congress has granted a right to construct two dams across the Savannah river above Augusta, and the power to be thus developed electrically will supply a number of factories and small cities with light and power.

UNINSTRUCTED DELEGATION.

So Advises the Democratic State Committee of New York.

New York, March 21.—The democratic state committee Thursday voted almost solidly in favor of an uninstructed delegation to the national convention.

But one voice was raised in opposition, that of Charles P. Williams, of Lyons, who subsequently explained that he stood for William J. Bryan.

The prevailing sentiment was expressed in a resolution which after setting forth that the interests of the country and party demand the selection as presidential candidates of men who at the time and place of the national gathering shall appeal most strongly to the justice and judgment of the whole body, calls upon the democratic electors of the state to choose as delegates the strongest and ablest men in the ranks, and send them to the national convention, pledged and uninstructed as to conditions.

Japan Invites Fleet.

Washington, March 21.—The Japanese government has extended an invitation to the American government to have the Atlantic battleship fleet to visit any port in Japan on its homeward cruise around the world. This invitation was received at the Japanese embassy here and was at once transmitted to Secretary Root by Ambassador Tanihara.

Wants \$10,000 for Three Fingers.

Columbus, Ga., March 21.—Ten thousand dollars is the value placed upon the last three fingers of the left hand of Robert Newsome, the eight-year-old son of Barney Newsome, who has fled out for damages for that amount in Moscow superior court. The defendant is the Columbus School Book company, in whose factory the accident is alleged to have happened.

RIOT AT CLEVELAND.

Rush for Work Resulted in Many Persons Being Injured.

Cleveland, O., March 21.—One man was fatally injured and a number of others seriously hurt in a riot near the plant of the American Steel and Wire company on Independence road, in the southern outskirts of the city Thursday.

Fifty men crowded around the gates of the plant seeking employment, word having gone out that additional help would be taken on. A quarrel started among the men following the attempt of those in the rear to get closer to the gate and a general fight began, the men using stones and clubs as weapons.

One man shot down his opponent, who had struck him with a rock. At this juncture a patrol wagon loaded with police arrived. A number of the rioters were found lying unconscious on the ground. Charles Wroble, one of the rioters, who was shot, cannot recover.

WHOLESALE MURDER CHARGE.

Man Accused of Being Responsible for Death of Five Persons.

Oklahoma City, March 21.—Fannie Ritchie and Harry McCuen, the woman's former lover, were arrested in Denison, Tex., Thursday after the woman had accused McCuen of being responsible for the death of five persons in this city last August.

Five bodies were found in the ruins of Anne Bailey's resort, which had been burned. The Ritchie woman alleges that McCuen murdered a stranger in the Bailey resort for the purpose of robbery. Three women in the house and one man had been given "knockout drops" in order that the murder plot might be carried out without interference.

A negro porter, she alleges, set fire to the building to destroy bloodstains left after the murder.

In the fire that destroyed the building William Ray, Vernon Wallace, Sadie Ward and Walter Ward perished.

BANDITS LOOTED BANK.

Officials Were Held Up at Point of Revolvers.

Muskogee, Okla., March 21.—Two robbers, believed to be members of the gang that held up the Tyro, Kan., bank last week, walked into the Davis bank at Hoffman, Okla., 30 miles southwest of here, Thursday afternoon, covered the bank officials with pistols and gathering up \$900 in currency, pointed their horses which were standing outside and escaped.

So quiet and rapid were the movements of the outlaws that they had secured a good start before a posse was formed to pursue them. The two men headed into the rough country southwest of Hoffman, and all three of them were soon lost in its fastnesses.

Vice President I. E. Davis and Cashier W. B. Davis were the only persons in the bank when the bandits entered.

Queen's Jewels Again Seized.

Brussels, March 21.—The jewels of late Queen Henrietta, of Belgium, left by her will to her daughter, Princess Louise, which some months ago were seized for debt, and later returned to the princess, have again been seized on a court order obtained by Count Roger Feetys, for an alleged loan of \$11,000 by the count to the princess. An arrangement had been reached with other creditors whereby the sale of the jewels was avoided. Count Feetys, however, opposed the arrangement and has entered suit, which will be heard on Tuesday next.

Decided Decrease Shown.

Washington, March 21.—The first month of the present year shows a decided decrease in Great Britain's exports and imports, according to consul General Wynne at London. The imports were \$274,316,619, a decrease from the same month last year of \$24,274,214. The exports in January aggregated \$165,823,986, a decrease of \$1,677,427.

Killed by Brigands.

Tulle, March 21.—A miller was killed Thursday during an engagement between a band of thirty French brigands carrying outlaws.

WOMAN IS ON TRIAL

Mrs. Morasch Charged With the Murder of a Child.

POISONED CANDY WAS SENT

Handwriting Experts Will Be Called to Testify that Box of Candy Sent Was Addressed in the Handwriting of Mrs. Morasch.

Kansas City, March 21.—Taking of testimony in the case of Mrs. Sarah Morasch on trial in the circuit court of Kansas City, Kan., charged with the murder of four-year-old Ruth Miller, who died from the effects of eating poisoned candy intended for her fourteen-year-old step-daughter, Eva Miller, began Friday.

The testimony of handwriting experts will, it is expected, play an important part in the case.

The prosecution asserts that Mrs. Morasch addressed the fatal box of candy and will produce a number of authorities on handwriting to prove its assertion.

BECOMES SOLE OWNER.

Vast Property Interests Go to Capitalist and Iron Magnate.

Burlington, N. J., March 21.—For the sum of \$607,431, Andrew H. McNeal, capitalist and iron magnate, has become the sole owner of all the Pennsylvania railroad property within the city limits, including freight and passenger stations, round houses, trackage and equipment.

The railroad refusing to pay the tax assessment by the city, Clerk Thomas S. Mooney offered its property among others sold for unpaid taxes and declared it "too good a bargain to miss."

McNeal is known as one of the most aggressive fighters who has figured in the courts of New York, New Jersey and Pennsylvania, and those who know him well expect to see trouble when he makes his ultimatum to the railroad.

It is said that McNeal will demand that the road vacate his property that he may tear down the unsightly passenger station which has been an eyesore to the city for years.

COTTON CROP OF 1907.

Census Report Shows an Aggregate of 11,261,163 Bales.

Washington, March 21.—The census report, issued Friday, shows that the cotton crop grown in 1907 aggregated 11,261,163 running bales, counting round as half bales, and including linters, and showed a total of 77,577 active ginneries for 1907.

This is against 12,306,206 bales in 1906 and 10,602 in 1905.

The statistics included 127,646 bales returned as remaining to be ginned after the time of the March canvass. The total number of running bales as given is equivalent to 11,302,472, 560-pound bales.

The average growth weight of the bales in 1907 is 501.9 pounds. The total crop of 1907 are 16,795,266 square bales, 193,546 round bales, 56,793 square island bales, linters, 276,500 bales.

Broken Rail Caused Wreck.

San Antonio, Tex., March 21.—Two men were killed and seven other persons were badly injured Thursday when an excursion train on the International and Great Northern railroad, bearing a party of home-seekers from Kansas and Oklahoma, enroute to Las Palomas, Mex., was wrecked at Peasmall, fifty-two miles south of this city. The engine and tender, baggage car and four day coaches left the track, the derailment being caused by a broken rail.

Fearful Mob Violence.

Henderson, Ky., March 21.—The seven negroes accused of complicity in the Webster county race riots, which resulted in the death of J. B. Berry, were brought to Henderson Friday for safety. They have been in the Webster county jail at Dixon and fear of mob violence caused their removal to the city of Henderson.

OPEN HOUSE AT STATE UNIVERSITY

Faculty and Students Entertained
Guests in a Clever Manner.

MANY VISITORS WERE PRESENT

They Were Shown Through All Buildings and the Experimental Farm, Where Professors and Assistants in Various Departments Explained.

The "Open House" at the University and Experiment Station on Friday, March 20, was a great success and reflects great credit upon the committee who had it in charge. A large number of people were present, and this in spite of the threatened storm.

Conveyances decked in University colors ran at frequent intervals from the court house square to the campus. These began to run at about seven o'clock, the Student Brass Band playing a few selections on the square before the first left.

The visitors found sentinels in full uniform at the gates, and guards stationed wherever it was thought advisable, to give full directions. At the cadet barracks the ladies were received by Captain Cox and Mrs. Crow.

At 7:45 the trumpeters sounded the "Call to Quarters," which gave notice that the students were in their rooms, and that everything in the barracks was open to inspection. In a few minutes large numbers visited the students' rooms. It surprised most of the visitors to find what good taste the students have, and how attractive the rooms are.

At 8:30 the trumpeters sounded the "Release from Quarters," whereupon all the other buildings were thrown open, and conveyances began to make trips around the grounds. Most of the visitors went through the grounds and buildings systematically, beginning at the end of Thomas Hall, occupied by the offices of the president, auditor, etc.

The second floor of this section is the private quarters of Mrs. Swanson, and here she received her friends. The floor above is used for the museum. Most of the visitors were especially pleased by the large collection of birds.

Entering the next section the guests were shown through the kitchen and pantries, and then through the dining hall. These were shown as they appear in daily use. Here one was most impressed by the neatness and orderly arrangement. The second floor of this section is occupied partly as stock room for the library and partly as classrooms for Dr. Yocum and Dr. Schmidt. Dr. Yocum was on hand to give information about his department. The floor above is used as a reading-room and class-room for Dr. Banks. The reading-room also serves as a library. The visitors noted that the departments of English, History, and Political Economy were quite rich. Most of the well-known American periodicals were to be seen, a large number of newspapers and magazines.

The next section gave entrance to the chapel, which had been tastefully decorated for the occasion with potted plants and bunting. On the second and third floors were found the rooms of the Mechanical Engineering Department.

All the sections were open for inspection. Great interest was shown by the guests in the Department of Physics, where Dr. Benton explained the use of some of his apparatus.

Experiment Station.

On the left of the entrance into the Experiment Station building, the chemical laboratories of Prof. A. W. Blair were open to visitors. Here might be seen in operation various chemical processes; such as the apparatus for fat extraction, in which the percentage of fat in velvet beans was being determined. There were also shown the operations for determining lime and nitrogen and the process of ashing agricultural products in a muffle furnace. In another room were shown the machines for grinding samples of seeds, etc., and for pulping fruit and vegetables, extracting their juice, determining their sugars by the polariscope, and their acids by titration. A vacuum drier, a sugar polariscope of the most improved type, and an Atwater bomb calorimeter for ascertaining the amount of energy-producing material in various feeds were also on view.

On the right-hand of the ground-floor Prof. John M. Scott, of the Department of Animal Industry, showed

SPECIALS

For Housekeepers

CHRISTY IMPROVED MIXERS, for Mayonnaise dressing, beating eggs, whipping cream. Three separate machines for three distinct purposes. The very thing you have been looking for. A Salad Recipe Book with each machine.

"METEOR" — Famous Circulating Coffee Percolator; saves one-third, always insures delicious coffee. The best-known method for making coffee or tea, as the beverage is distilled and not boiled. Call and see them.

Baird Hardware Co.

centrifugal test of milk by the Babcock process, and seeds of varieties of clover, alfalfa, corn, velvet bean, cowpea, and soybean. Samples of cotton and velvet beans were also to be seen. Charts showing the percentage composition of different feeds in digestible nutriment, and example of balanced and unbalanced rations were on the walls. On one table was a display of veterinary instruments.

The plant physiologist had arranged an instructive series showing each step of the processes necessary in preparing thin sections of plant tissues for the microscope. Branches of the oranges affected with die-back, chlorosis of the cassava, and orange leaf spots were to be seen, as well as all the details of a complete outfit for microscopical work on plants.

On the first floor the visitors might inspect the compact and well-arranged library of the Station, admirably presided over by Mrs. E. W. Berger. On its shelves, in one thousand bound volumes and more than 1,300 pamphlets, are found a practically complete set of the publications of the Department of Agriculture, and of the Experiment Stations of the United States, as well as of many foreign agricultural departments and botanic stations.

The Horticultural and Botanical Department, on the opposite side, Prof. P. H. Rolfs exhibited a number of tropical and sub-tropical fruits. Photographs of fruits, trees and groves, and also charts of rotations and of crops, were on the walls.

The botanist exhibited the bacterial diseases of celery, known as black heart, the cause of the disease being shown under the microscope. Samples showing the use of the thermometer in guava jelly making were on view.

At the top floor of the building, in the large room devoted to Plant Pathology, Prof. H. S. Fawcett had arranged some instructive exhibits of fungus diseases. The disease known as scaly bark of the orange was shown as it affects the branches and the fruit. Samples of oranges which had been sprayed with Bordeaux mixture showed the effects of the fungicide in the absence of scaly bark marks, but there was a large crop of purple scale. Other orange samples displayed the effects of the spraying on the smoky fungus of the orange. The black rot of cabbage was illustrated by the yellow bacteria, which cause it being viewed under a magnification of 1,000. These bacteria were also shown growing on rice and nutrient jelly, and the process of counting the number of bacterial colonies, each of which grows from one bacterium in the dishes of nutrient jelly, was illustrated.

The entomologist, Dr. E. W. Berger, exhibited pumps for spraying fungi-

cides or fungus spores, insecticidal solutions, or dust. A number of injurious insects were on view. An interesting exhibit was the demonstration of the excretion of honey-dew in drops by whitefly larvae. The work of the Yanatee snail in clearing off the sooty mold which grows in the honey-dew was illustrated by photographs. Collections of moths, butterflies and beetles were on view.

In front of the Experiment Station building, in a temporary and well-lighted pen, the Animal Industrialist had on view two shorthorn bulls, (one, five years old, weighing 1,600 pounds), one shorthorn cow (5 years old, weighing 1,100 pounds), one Jersey cow, and a native Florida cow.

After our examination of the Experiment Station rooms we find a conveyance waiting to take us to the green house. At the green house we find Mr. Hess, who shows us his collection of plants and who also indicates what experiments are being carried on. A flying trip across the farms, stopping to glance at the pool where Mr. Hess has a fine collection of aquatic and semi-aquatic plants, we pass on hurriedly and come to the swimming-pool, which was formerly a large sink-hole, but has been fitted up in a modern manner.

We did not visit the gymnasium and athletic fields, but went on to the shop. Here we found a very creditable assortment of wood and iron-working tools, and we were surprised by the skill and proficiency of the students as displayed in the samples of their work on exhibition.

Back to the chapel, which we reach in time to hear Mrs. Crow play and to hear Miss Schmidt sing, both of whom pleased us greatly by their renditions. At the close of their playing Dr. Sledd made a short and informal address. In this he told of the work of the University, compared it with the other higher institutions of learning in the South, and showed why all the friends of the institution should feel proud of what it has already accomplished and hopeful as to its future.

Pof. H. A. Howell of Havana, Cuba, Recommends Chamberlain's Cough Cure.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold; the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by all druggists.

Plumbing.

Are you interested? We have during the past few days completed plumbing contracts for J. M. Dell, J. M. Jolly, S. M. Davis, Mrs. Chapman, C. A. Faircloth, J. J. Hayman, D. Graves and Col. A. P. Morrow, and have \$3,500 worth of contracts booked.

We make no charges for submitting plans and specifications. Let us figure with you.

THE S. J. THOMAS CO.

First Presentation of Play.

San Francisco, Cal., March 21.—"Memory and Tomorrow," the new problem play by E. Booth Tilton, was presented here for the first time at the Novelty Theater Thursday night. Miss Mary Mannering took the leading part in which she is said to have done some splendid and emotional acting. The general results achieved are spoken of as quite praiseworthy.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

Run Down

If your doctor says take Ayer's Sarsaparilla, then take it. If he has any other better, then take that.

If you are all run down, easily tired, thin, pale, nervous, go to your doctor. Stop guessing, stop experimenting, go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alternative, an aid to digestion. J. C. Ayer & Co., Lowell, Mass.

THE STREIT - DAVENPORT

We invite every housekeeper to call and examine the Streit Davenport Bed—the most perfect combination bed ever offered to the public. Upholstered in first-class manner—63 steel springs in seat and back, making the most comfortable bed you can imagine. The Streit is not like other so-called Davenport beds—it is complete.

The Streit Morris Chair, with foot-rest, is simply perfect.

COME IN AND EXAMINE THEM. Several different styles on exhibition. Prices very reasonable. Send word or a card to

R. G. BASS, Agent, 103 East Masonic St.,

and he will call on you with samples of upholstery, cuts of different styles, prices and all information necessary.

GAINESVILLE, FLORIDA

AT THE CHURCHES TODAY.

List of Various Places of Worship, Where Those Desiring May Attend.

Services will be held at the churches this Sabbath as follows:

First Methodist Church, Rev. T. J. Wilson—Sunday school at 9:30 a. m. Preaching at 10:45 a. m.; subject, "Serve the Lord With Gladness." Junior League at 2:30, Seniors at 3:30 p. m. Evening services at 7:30 o'clock; subject, "The Wedding Garment." The teachers of the Sunday school are requested to meet the superintendent at the church at 9:15. This is important.

At the First Baptist Church, Rev. B. B. Rogers, pastor, there will be Sunday school at 9:30 a. m., and preaching at 10:30 by Rev. M. A. Glantz of Key West. Junior B. Y. P. at 3: Senior B. Y. P. U. at 6:30 o'clock. This will be a special mission meeting, at which the pastor will give a talk. Preaching at 7:30 p. m. by the pastor.

First Presbyterian Church, Rev. Thos. P. Hay—Morning service at 10:30; subject, "Religious Indifference." Sabbath school at 3:30 p. m. Evening service at 7:30 o'clock; subject, "The Unknown Country."

Advent Christian Church—Sunday school at 10 a. m. Preaching at 10:45 a. m. and 7:30 p. m. by Rev. John M. Kelley of Maine. Rev. Kelley is an evangelist of experience and ability, having worked extensively in the United States and Canada, and the people will make no mistake in hearing him.

Holy Trinity Church, Rev. F. H. Craighill, rector—Third Sunday in Lent. Holy communion at 7 a. m. Morning prayer and sermon at 10:30 a. m. Evening prayer and sermon at 7:30 p. m. During the coming week Lenten service will be held every afternoon, except Saturday, at 4:30, and also on Wednesday and Friday at 9 a. m. A question box has been placed in the vestibule of the church and the addresses at these services are made in answer to the questions or requests deposited.

At St. Patrick's Catholic Church, Rev. P. J. Lynch, there will be mass at 10 o'clock a. m., and devotion of the Holy Rosary and Benediction of sacrament at 4 p. m.

NEWS OF CITY AND COUNTY CONDENSED

F. F. Paulling of Lake View, John G. Dampier of Hague, Captain J. J. Barr of Micanopy and R. H. Martin of Hawthorn were among those who spent Friday in Gainesville.

Miss Daisy Rawlings, a charming young lady of Memphis, Tenn., who has been in this city for the past few days on a visit to Mrs. T. S. Dorsey, has returned to her home. Miss Rawlings is well pleased with her visit to Gainesville, which she declares to be one of the finest little cities she has ever visited. She made many friends during her short sojourn here who hope to have the pleasure of a longer acquaintance at some future time.

After the illness of Wm. Bradford, who is still indisposed and says he will not be a candidate, B. R. Colson, a young man well known and popular in this city, has decided to make the race for city tax assessor, and his announcement will appear in due time. Mr. Colson is thoroughly competent for this position, having been engaged in the abstract business for some time. He is familiar with every tract of property in the city, is accurate, and will no doubt make a good run.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

Card of Thanks.

To the many sterling friends whose sympathies and kindnesses to me, in my bereavement, have been most generously and gracefully shown, I wish to express my sincerest appreciation and heartfelt thanks.

Silver Aluminum Jelly Moulds Free

Individually Moulded desserts are now considered the proper thing. The moulds are hard to get outside the large cities, but users of JELL-O, The Dainty Dessert, can get them absolutely free. Circular in each package explaining and illustrating the different patterns. JELL-O is sold by all good grocers at five cents per package. Do not accept a substitute or you will be disappointed.

Elegant Display of Spring Goods At the "Daylight Store."

Never before has such a grand display of spring goods been seen in Gainesville as is now found at the "Daylight Store"—The G. W. Hyde Company—the finest and most attractive dry goods establishment in the State of Florida.

The display of hats and other fine millinery is truly a thing of beauty, while the handsome line of ladies' ready-to-wear garments is as much admired by the men as the ladies themselves.

Everything is offered at the lowest prices, and goods, are shown with pleasure, whether you buy or not. Do not fail to read the advertisement of The Hyde Co. in today's Sun, and notice the exceedingly low prices quoted therein.

Old newspapers for sale at The Sun office.

HIGH SPRINGS NOTES.

High Springs, March 21.—Postmaster Glass of High Springs has just received a cable message from his son, Charles, apothecary of the U. S. S. Monongahela, recently burned in Guantanamo Bay, Cuba. He reported all safe. Young Mr. Glass was reared in this town and has hosts of friends who have noted his career in the navy with much interest. They are delighted to know of his safety.

M. Foreman of High Springs served on the Monongahela forty-five years ago, and, as is proverbial with sailors, loved the old ship. In her day she excelled every ship afloat of her class. She was designated a sloop of war, and was as nimble and easy to handle as a small sailboat, notwithstanding her formidable armament. Her hull was three feet thick and as hard as iron.

If you have found anything see if it is advertised in the want column.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

AN IMPORTANT MATTER.

Those interested in the Hospital Association should not fail to attend the meeting of the association at Col. W. W. Hampton's office tomorrow afternoon at 4 o'clock, which is called for the purpose of conferring with Dr. Marsh of Pensacola. The outcome of this meeting will be of vital importance to Gainesville and Alachua county, as Dr. Marsh is endeavoring to establish a sanitarium here to be conducted upon the same plan which prevails in the great institution which has made Battle-creek, Mich., famous. Such a sanitarium as Dr. Marsh desires to establish would be of great benefit to this city and county, and every possible aid should be rendered toward its establishment. Let everyone who can lend a helping hand.

Hon. Ion L. Farris has formally announced that he will not be a candidate for Congress against the able and worthy incumbent, Congressman Frank Clark, but will stand for re-election to the Legislature from Duval county. Mr. Farris has acted wisely in the matter, for he would have met a Waterloo had he measured swords with Col. Clark.

The Starke Telegraph remarks that "the editor of The Tampa Tribune prides himself on his French and Latin, but he is not well up on garden peas. For instance he calls the strawberry a vegetable, thus putting that delicious 'fruit' in a class with cabbage and onions. That's rank."

Anyone wishing to correspond with Capt. I. J. Carter can address him at Putnam Hall, Fla. This information is given for the benefit of any survivors of Capt. Carter's company who may desire his testimony in relation to service in the Confederate army.

Evelyn Nesbit Thaw has begun a suit to annul her marriage. All right. Now if some power will kindly annul the entire Thaw scandal, and Thaw name from the public prints we may go on in peace talking about Roosevelt and prosperity.

It did not take the mayor of Cincinnati very long to discover that he had made a bad break when he said that women should not be allowed to run automobiles. The billy-goat that butted the horns had a parallel experience.

The Sun is requested to announce that L. N. Roberts of Bell will be a candidate for county commissioner from the second district at the May primary, formal announcement of which will be made later.

H. B. Brooker of Bell will be a candidate for renomination as a member of the school board from the second district in the coming primary. His formal announcement will appear in a few days.

If you plan to buy property of any description this spring, to study all of the ads. relating to property is merely to seek light.

People who "overlook" the ads. in their reading are cultivating the habit of "unselfishness" in its absurd sense.

MORE TROUBLE COMING.

There is every indication that this Government is going to be drawn into more trouble about Hayti. The revolution that is always smouldering in the island has broken out in a fresh place. Eleven men of the opposition have been dragged out of their beds at night and shot before daylight. The passions of the existing Government are aroused and the announcement has been made that the privilege of refuge in the foreign consulates will be denied. The powers of Europe, that is to say England, France and Germany, have all hurried warships to the Haytian ports to protect their subjects, and there is loud demand for American vessels wherever around the fringe of the island there are American interests.

This country has had almost enough trouble already over Hayti and Santo Domingo, and it would be a pity if it were forced to shoulder any more. The black republics are the plague spots of the West Indies. Their inhabitants are recognized in the family of nations, but as a matter of fact they are no further advanced in civilization than the average tribes. They speak mongrel French and have a so-called republican form of government, but the veneer of civilization that separates them from the savage and the voodoo doctor is so thin that it does not even have to be scratched to show the wild beast underneath. No civilized nation would ever think of violating a foreign consulate.

It might not be a bad scheme for the United States to wink at the Monroe Doctrine long enough to take on Hayti and then wish itself well rid of the bargain. France, Denmark and England are already represented territorially in the West Indies, and one policeman more would not much matter and would rid the United States of a lot of bother. We certainly do not want to add Hayti to our existing collection of troubles, but it would be a good thing for civilization if one of the powers would take it and clean it up and fumigate it.

HOLLOWAY IS A CANDIDATE.

Hon. W. M. Holloway, State Superintendent of Public Instruction, whose candidacy for renomination has been known to the public for several months, is now officially a candidate to succeed himself, as indicated by the following letter:

Tallahassee, Florida, March 20, 1908.
Hon. Arthur T. Williams, Chairman
State Executive Committee, Jacksonville, Florida.

My Dear Sir: Your favor of the 18th inst., enclosing a blank notice of candidacy for United States Senator and State officers other than members of the Legislature, together with a copy of the rules, resolutions and election laws governing primary elections, has been received.

Enclosed find herewith my notice of candidacy, together with check for \$125, which will cover the amount of my assessment as a candidate for the office of State Superintendent of Public Instruction.

Kindly acknowledge receipt of same, and oblige. Yours truly,
W. M. HOLLOWAY.

There is no disguising the fact that Hon. W. H. Lamar is going to be a prominent figure in the Senatorial contest. He has a good record, as well as a charming wife to aid him in his canvass, and is making friends daily.

Candidates for the Legislature are slow in making announcements this year. It is not very likely that the two positions will "go begging," however, and the best men in the county should be selected.

If you are a candidate for office let the people know it through The Sun.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Take Hall's Family Pills for constipation.

Under the caption of "The First Advertiser," The Western Publisher gives the following interesting data: "Moses was the first journalist, because he wrote on the tables of stone—but Noah went him one better and advertised. Noah built the ark and announced the day for sailing. He whooped 'er up lively and made a great display. The non-believers scoffed at him and died in the wet water. Thus again did the man who advertised triumph. You can't keep a good man down, especially if he advertises."

Elaborate preparations are being made for the Ponce de Leon celebration in St. Augustine on April 1, 2 and 3. It will far exceed all expectations, and those who have the pleasure of seeing it will always remember St. Augustine.

Tom Watson, the Georgia Populist who so ardently supported Hoke Smith for Governor, says "Hoke has backslided." Tom is therefore "agin" Hoke for re-election and is lambasting him fore and aft in his magazine.

The County Commissioners should give the matter of reapportioning their respective districts immediate attention. As at present apportioned the districts are not nearly equal either as to territory or population.

The diamond importer who has lost a fortune in gems, has at least this consolation: At the present market prices he has not lost more than 60 per cent of what he would had it happened a year ago.

INSOMNIA

"I have been using Cascarets for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented to be."

SHORT STATE ITEMS

Lakeland is shipping celery in carload lots.

A regular boat line has been established between Daytona and St. Augustine.

The strawberry shipments from Starke have assumed carload lots. The berries are reported fine and the prices good.

The Key West Citizen says that more tourists are visiting Key West this season than ever before and are staying longer.

Merchants of Titusville have agreed to close their places of business Thursday afternoon each week to take effect immediately.

Manatee county celery growers rejoice in selling their crops at from \$3,500 to \$4,000 an acre. No wonder this plant is such a nerve tonic.

The negroes who burglarized Mr. Hillman's house in Orlando were convicted and sentenced to life imprisonment at hard labor, and have been sent to the convict camp.

The people of Florida welcome Inventor Thomas A. Edison to his Southern home, and earnestly hope the healing air and sunshine will speedily mend his shattered health.

Even the mackerel in Florida waters are reported to have turned up their noses at the smell of the gas engines in boats and to have turned tail as well and "skiddooed."

The county commissioners of Leon county have taken active steps towards the improvement of the county roads in that county. Six strong mules have recently been added to the working force.

Apalachicola ceases not her push in going after good enterprises. It now comes to pass that she is to have a Young Men's Christian Association. No better undertaking can be enterprised in any town.

The insurance adjusters have about completed their work in connection with the Ybor City fire and the aggregate amount to be paid out in losses by the several companies holding risks in the burnt district is \$453,000. It is now estimated upon reliable authority that the full amount of the losses sustained at the fire will be \$800,000.

A Pleasant Physic.

When you want a pleasant physic give Chamberlain's Stomach and Liver Tablets a trial. They are mild and gentle in their action and always produce a pleasant cathartic effect. "all any drug store for a free sample."

New Mexico for Taft.

Silver City, N. M., March 21.—All counties in the territory have elected delegates to the republican territorial convention, which meets here Saturday, and have endorsed Secretary Taft for president.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

W. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Micanopy News Items.

Hon. J. M. C. Stockton Addresses Large Crowd of Citizens.

Micanopy, March 21.—Hon J. N. C. Stockton, candidate for Governor, spoke here Thursday night at Feaster's Hall to a large crowd of citizens of this place and surrounding country. Dr. L. Montgomery introduced Mr. Stockton as the next Governor of Florida. Mr. Stockton held the close attention of the crowd for about an hour. He very clearly stated his position on the questions involved in the campaign and came out squarely on the prohibition question, as he did on the question of corporate control. He urged the people to be especially careful in selecting their county commissioners and members of the Legislature, and promised, if elected, to give the people a clean and economical administration. He asked that the records of the candidates offering for the Governorship be carefully investigated, and when such investigation had been made for them to vote for the man best fitted to serve them. He made a favorable impression and it is safe to say Mr. Stockton will get a large vote at this place. This was Mr. Stockton's first visit to Micanopy and he said he was especially proud to see so many ladies present.

J. B. Simonton is installing a waterworks plant in his residence. Several others here are going to follow suit at an early date.

J. E. Thrasher is having his house on Main street thoroughly repaired and repainted. When completed it is going to be up-to-date in every respect.

Mrs. Sue D. Feaster has had her residence on Seminary street repainted. Dr. H. C. Crawford, on the same street, is following suit, while Capt. B. W. Fontaine, on Main street, is also remodeling his already elegant home. These improvements, with others that are contemplated, will help the general appearance of our little town.

The protracted meeting closed at the Presbyterian church Wednesday night. The services were conducted by Revs. Way and Sample. The meeting was well attended and the sermons very instructive. There were several additions to the church. The friends of Rev. Mr. Way were glad to have the privilege of hearing him again.

The New Tusawilla Hotel will be ready for business about the 15th of April. A formal announcement will be given later.

Dr. L. Montgomery is hauling brick to have a brick block built where his wooden buildings now stand on Main street.

Mrs. Pitts' music class gave an entertainment Friday night at Feaster's Hall.

ST. PATRICK'S DAY AT MELROSE.

Melrose, March 21.—St. Patrick's Day was duly celebrated in Melrose by a large gathering invited for this occasion to meet the O'Whitehead's and the McRemmel's at the "McRemmel Shanty." As the invitation stated that the parade would start at 12:30 p. m. sharp everybody came on time, and when the drum and fife (Mr. Remmel and Mr. F. P. Moore) struck up the "Wearing of the Green," all hands, with Mr. E. J. Whitehead as marshal of the day, who was adorned with a bright green scarf across his shoulders and a tall stove-pipe hat with ribbons, leading off, fell in by twos and with the pretty badges and flags waving, the parade started for the oak grove on the lake shore. Many more flags, both American and Irish, decorated the trees and added much to the beauty of the scene.

Three large tables were arranged for the sixty odd guests present, who soon were busy enjoying the fish and fatters and other good things provided.

Mr. J. A. Remmel enlivened the occasion by one of his witty speeches, followed by Mr. Whitehead who gave a very interesting talk on the "Life of St. Patrick."

During the afternoon potato races and other games were played and the winners received pretty candy boxes in the shape of Irish hats and harps.

On a side table Irish duds and tobacco were set out for the use of the men, but most of them were eagerly secured by the ladies as souvenirs of this very pleasant function.

The launching of the new motor boat is now definitely set for Monday, the 23rd (skiddoo) of March, and a large crowd is expected to see the novel sight.

The W. of W. propose to give Melrose a treat in the shape of a "turtle supper," when turtle soup, stew, etc., will be served. The date will be announced later.

Guards to Be Inspected.

Captain J. W. Blanding, commanding Company H, Second Infantry, Florida State Troops—the Gainesville Guards—has received information that his company will be subjected to inspection next Tuesday evening.

Adjutant-General J. C. R. Foster will probably not be present, but a regularly commissioned officer of the U. S. Army will conduct the inspection.

Captain Blanding and Lieutenants Warren and Wheeler feel very much pleased over the prospects of this inspection, as the company is now in its elegant new armory, and was never in better condition since its organization. Several new names have been added to the roster since the last inspection, and in all the company will make a fine showing.

Captain Blanding extends a cordial invitation to the public to attend this

inspection, during which the company will participate in a drill.

Warranty and mortgage deeds, chattel mortgages and labor contracts for sale at this office. Price 50 cents per dozen, or \$2 per hundred.

Sixty Horses Burned.

Chicago, March 21.—The livery barn of E. Nickles was destroyed by fire of unknown origin early Friday. The loss is \$75,000. Sixty horses perished in the flames. The fire is supposed to have started in the hay loft.

Gainesville, Florida.

PANIC WAS AVERTED.

Boy's Presence of Mind Probably Saved Many Lives.

Chicago, March 21.—Rare presence of mind of James Berney, an altar boy of the Roman Catholic church of Our Lady of Lourdes, and the discipline taught by school fire drills, prevented a fire, panic and probable loss of life in the crowded church Thursday.

Just before the service the lad, who is fourteen years of age, enrobed with his taper and started to light the candles before the altar. The lower candles were lighted and then the upper ones were not ablaze, and the lad's work seemed complete when one of the candles high up on the altar went out.

Young Berney climbed up the narrow stairway and just had succeeded in lighting the troublesome candle when his white surplice flattered directly into the flames of a lower taper.

The lace instantly took fire and several cries of "Fire!" "Fire!" came from the congregation.

Realizing the danger of inciting a panic, as well as of making a misstep which might topple over many other blazing candles, the boy stood perfectly still on the steps, while the surplice burned itself out.

Several men ran forward and extinguished the dying flames and carried the lad down.

The whole congregation, after the first cry of "Fire!" seemed hypnotized by the boy's quiet immobility, and a panic with a consequent rush for the doors was averted.

When taken into the vestry room, it was found that Berney had escaped burns almost miraculously.

Reduction in Expenditures.

St. Petersburg, March 21.—Although the examination of the budget has not been finished, the budget committee of the duma is able to forecast a net reduction in expenditures of \$33,500,000. This leaves a deficit of only \$64,000,000, of which \$26,000,000 is for the repayment of short term obligations to Germany. The actual deficit in the running expenses of the state is \$38,000,000.

LETTER TO C. W. CHASE,

Gainesville, Florida.

Dear Sir: There are two sorts of paint: one to sell and make money, the other to paint and save money.

Who gets the money? The maker, the seller, the painter.

Where does it come from? The owner, of course; he pays the painter for doing the work, and the dealer for gallons of paint; and he pays the paint manufacturer, gallons again; more gallons, more money all round; for the owner to pay to the painter, dealer and paint manufacturer.

What's the paint that saves money? Gallons again; less gallons, less money for paint, less money for wages; a gallon of paint is \$5 for wages and paint. Less gallons, less money to pay, \$5 a gallon.

Two sorts of paint: less gallons and more; less money and more; \$5 a gallon difference: two to one in gallons and money.

It costs twice as much to paint the average more-gallons paint as to paint Devco. When the people find out, it may not be quite so easy to sell extravagant paint by calling it "cheap."

Yours truly,

P. S.: The S. J. Thomas Co. sell our paint.

LUMBER PLANT BURNED.

Loss of Company at Lumberton, Miss.,
Will Reach \$75,000.

Lumberton, Miss., March 21.—The dry kilns, machine shops and lumber sheds of the Camp & Hinton company were destroyed by fire Wednesday evening.

Locomotives belonging to a lumber road owned by the same company were also burned. The main mill is still intact, but was saved after a hard fight by the employees. The loss is estimated at \$75,000.

The company, which is one of the largest in south Mississippi, is now in the hands of receivers.

The operation of the plant will continue uninterruptedly as it has large orders for export shipments.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

Grew Desperate and Took His Life.

New York, March 21.—Herbert Kremer, son of President William R. Kremer, of the German-American Insurance company, Thursday night shot and killed himself in the apartments of Mrs. Lafayette B. Gleason, who was formerly the wife of the clerk of the state senate and secretary to the republican state committee. Mrs. Gleason said that Kremer had become desperate following the termination by her of their wedding engagement. Kremer was thirty years of age, and had been employed as a clerk in the office of an insurance broker.

Listen

And remember the next time you suffer from pain—caused by damp weather—when your head nearly bursts from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from rheumatism and neuralgia. I am pleased to say that now I am free from these complaints. I am sure I owe this to your liniment." Sold by W. M. Johnson.

Emma Golden, Anarchist, Ill.

Chicago, March 21.—Emma Golden, noted anarchist, suffered a nervous collapse Thursday night and was taken to the home of a physician. Her sudden collapse was attributed to her strenuous efforts during the last few days to secure a hall in which to speak in defiance of the police. During the last two days Miss Golden has displayed symptoms of nervousness portending a breakdown. She has been busy on her lecture "What Anarchy Really Means," which she intended to deliver in Milwaukee shortly.

A Baby

Should be sunshine in the home, and will be if you give it White's Cream Vermifuge, the greatest worm medicine ever offered to suffering humanity. This remedy is becoming the permanent fixture of well regulated households. A mother, with children, can't get along without a bottle of White's Cream Vermifuge in the house. It is the purest and best medicine that money can buy. Sold by W. M. Johnson.

THE MAN AND HIS JOB

By Herbert J. Maggood.

Some employers expect a whole lot for little money. A clerk who is working for a petty salary is often held responsible for things that should come up before a competent executive. An inexperienced man is not capable of handling a high-grade selling proposition and you can't hire an expert accountant for \$10 a week.

A young man I know holds a position in a factory, where his duties are to keep the books, fill orders, pack and ship, charge and make out bills, and handle all the correspondence. Furthermore, at certain seasons of the year he assumes full charge of the factory and is responsible for everything that goes on. For these services he receives only \$11 a week.

In Jamaica, high school graduates are hired to work in one of the general merchandise stores at the ridiculously low salary of \$5 a month.

The other day I heard about a young clerical man who applied for a position in the New York office of a well-known importing house. He asked for \$45 a month and said he thought that his experience would make him worth it. The manager threw up his hands in horror and said he expected to get a good office man for about \$25 a month.

Good employees cannot be secured at such low prices. The concern that hires cheap men cannot expect first-class work. You can't construct an efficient engine out of rusty wheels and scrap iron, and a profitable business can never be built up by underpaid employees.

Don't Complain.

If your chest pains and you are unable to sleep because of a cough, buy a bottle of Ballard's Horehound Syrup and you won't have any cough. Get a bottle now and that cough will not last long. A cure for all pulmonary diseases. Mrs. J.—, Galveston, Tex., writes: "I can't say enough for Ballard's Horehound Syrup. The relief it has given me is all that is necessary for me to say." Sold by W. M. Johnson.

Gold Output of Transvaal.

Washington, March 21.—The gold mines of the Transvaal produced in 1907, \$136,000,750 worth of gold, which, with the exception of \$5,000,000, was obtained along the reef upon which is situated the city of Johannesburg. This information, which comes to the state department from the United States consul at Victoria, South Africa, adds that prospecting and new mining enterprises outside of Johannesburg district have yielded practically no results.

This is Worth Remembering.

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk your health by taking any but the genuine. It is in a yellow package. J. W. McCollum & Co.

Many Persons Sentenced.

Riga, March 21.—Fifty-nine persons have been sentenced to terms of imprisonment up to five years, and thirty-four have been acquitted in connection with the attacks upon the estates of the barons in the provinces of Livonia and Courland.

WEAK MEN RECEIPT FREE

Any man who suffers with nervous debility, loss of natural power, weak back, failing memory or deficient manhood, brought on by excesses, dissipation, unnatural drains or the follies of youth, may cure himself at home with a simple prescription that I will gladly send free, in a plain sealed envelope, to any man who will write for it. SKIN DISEASES
CAUSED BY HUMORS IN THE BLOOD

The skin is provided with countless pores and glands, through which an evaporation is going on continually, day and night. This is nature's method of regulating the temperature of our bodies, and preserving the natural appearance of the skin. These pores and glands are connected with tiny veins and arteries through which they receive, from the blood, the necessary nourishment and strength to preserve their healthy condition, and enable them to perform this duty.

So long as the blood is pure and rich the skin will be free from eruption or disease, but when the circulation becomes infected with acids and humors its nourishing and healthful properties are lost, and its acrid, humor-laden condition causes irritation and inflammation of the delicate tissues and fibres of the pores and glands, and the effect is shown in Eczema, Acne, Tetter, Salt Rheum, or some other distressing, disfiguring skin disease.

These humors get into the blood through a deranged or inactive condition of the system. Those members whose duty it is to collect and expel the refuse matter of the body fail to properly do their work, and this surplus or waste matter is left in the system to sour and ferment and be absorbed into the blood. There are also certain other humors which get into the blood from without. The juice or milk from poisonous plants, such as poison oak, poison ivy, nettle rash, etc., enters through the open pores of the skin and takes root in the blood. This causes a breaking out which remains for a time and then disappears, but returns at certain seasons of each year.

The cause of all skin troubles can be traced to some kind of humor in the blood. Smooth, healthy skins are only possible where the circulation is pure; and therefore the cure of any skin affection can only come through a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., are valuable only for their ability to keep the skin clean, allay the itching, and tend to reduce inflammation; they cannot correct the trouble because they do not reach the blood.

S. S. S. cures skin diseases of every character and kind, because it purifies the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood,

and completely cures Eczema, Acne, Tetter, Salt Rheum, Poison Oak, Poison Ivy, and all eruptions and diseases of the skin. When S. S. S. has driven the humor from the blood, and cooled and cleansed the acid-heated circulation,

every symptom passes away, the skin is again nourished with rich, healthful blood, and comfort is given to disease-tortured skins.

Special book on Skin Diseases and any medical advice free. S. S. S. is for sale at all drug stores.

PANIC WAS AVERTED.

Boy's Presence of Mind Probably
Saved Many Lives.

Chicago, March 21.—Rare presence of mind of James Bernoy, an altar boy of the Roman Catholic church of Our Lady of Lourdes, and the discipline taught by school fire drills, prevented a fire, panic and probable loss of life in the crowded church Thursday.

Just before the service the lad, who is fourteen years of age, entered with his taper and started to light the candles before the altar. The lower candles were lighted and then the upper ones were not ablaze, and the lad's work seemed complete when one of the candles high up on the altar went out.

Young Bernoy climbed up the narrow stairway and just had succeeded in lighting the troublesome candle when his white surplice fluttered directly into the flames of a lower taper.

The lace instantly took fire and several cries of "Fire!" came from the congregation.

Realizing the danger of inciting a panic, as well as of making a mistake which might topple over many other blazing candles, the boy stood perfectly still on the steps, while the surplice burned itself out.

Several men ran forward and extinguished the dying flames and carried the lad down.

The whole congregation, after the first cry of "Fire!" seemed hypnotized by the boy's quiet immobility, and a panic with a consequent rush for the doors was averted.

When taken into the vestry room, it was found that Bernoy had escaped burns almost miraculously.

Reduction in Expenditures.

St. Petersburg, March 21.—Although the examination of the budget has not been finished, the budget committee of the duma is able to forecast a net reduction in expenditures of \$28,600,000. This leaves a deficit of only \$64,000,000, of which \$26,000,000 is for the repayment of short term obligations to Germany. The actual deficit in the running expenses of the state is \$38,000,000.

SKIN DISEASES

CAUSED BY HUMORS IN THE BLOOD

The skin is provided with countless pores and glands, through which an evaporation is going on continually, day and night. This is nature's method of regulating the temperature of our bodies, and preserving the natural appearance of the skin. These pores and glands are connected with tiny veins and arteries through which they receive, from the blood, the necessary nourishment and strength to preserve their healthy condition, and enable them to perform this duty.

So long as the blood is pure and rich the skin will be free from eruption or disease, but when the circulation becomes infected with acids and humors its nourishing and healthful properties are lost, and its acrid, humor-laden condition causes irritation and inflammation of the delicate tissues and fibres of the pores and glands, and the effect is shown in Eczema, Acne, Tetter, Salt Rheum, or some other distressing, disfiguring skin disease.

These humors get into the blood through a deranged or inactive condition of the system. Those members whose duty it is to collect and expel the refuse matter of the body fail to properly do their work, and this surplus or waste matter is left in the system to sour and ferment and be absorbed into the blood. There are also certain other humors which get into the blood from without. The juice or milk from poisonous plants, such as poison oak, poison ivy, nettle rash, etc., enters through the open pores of the skin and takes root in the blood. This causes a breaking out which remains for a time and then disappears, but returns at certain seasons of each year.

The cause of all skin troubles can be traced to some kind of humor in the blood. Smooth, healthy skins are only possible where the circulation is pure; and therefore the cure of any skin affection can only come through a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., are valuable only for their ability to keep the skin clean, allay the itching, and tend to reduce inflammation; they cannot correct the trouble because they do not reach the blood.

S. S. S. cures skin diseases of every character and kind, because it purifies the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood,

and completely cures Eczema, Acne, Tetter, Salt Rheum, Poison Oak, Poison Ivy, and all eruptions and diseases of the skin. When S. S. S. has driven the humor from the blood, and cooled and cleansed the acid-heated circulation,

every symptom passes away, the skin is again nourished with rich, healthful blood, and comfort is given to disease-tortured skins.

Special book on Skin Diseases and any medical advice free. S. S. S. is for sale at all drug stores.

Labor contracts for sale at this office; 50c per dozen, or \$2 per hundred.

The furniture department of New York Racket is full of good things cheap.

Plank's Chill Tonic is guaranteed to cure chills, fever, colds and lagrippe. Price 25 cents.

George DeSha of Waldo was among those who spent yesterday in this city on business.

Mrs. P. M. Colson and little daughter have returned from a visit to relatives at Micanopy.

Merry Widow hand-bags are the latest. We have 'em at reasonable prices. L. C. Smith.

Mrs. C. V. McKinstry of Tloaga is in the city, a guest of her parents, Mr. and Mrs. A. W. Taylor.

The S. J. Thomas Co. have just completed plumbing the residence of Mrs. Chapman on University street.

Up-to-date and down-in-price are our Spring Low Shoes for men and youths. Ask for Barry's and Bostonians. L. C. Smith.

Miss Georges Snow, the popular and efficient teacher of the Tacoma school, spent yesterday in this city with friends.

Three thousand oranges only 20c dozen while they last—large, sweet and juicy—at Reeder's Store, West Union street.

Housekeepers will find something of interest to them by referring to the advertisement of the Baird Hardware Co. in today's Sun.

Mrs. C. W. Houston of Concord, N. C., is in the city, a guest of her mother, Mrs. M. E. Houston, at the home of W. B. Phifer.

A refreshing rain visited the Newnan Lake section Friday night. It would have been gladly welcomed in Gainesville, but it failed to reach us.

R. S. Bradley and son, J. W., were in the city from Wacahoota yesterday. Friends of the former will be glad to learn that his wife, who has been quite sick, is considerably better.

Mrs. R. Wilson has eight items in today's paper which will prove of special interest to the ladies. Read her advertisement and note the special prices offered therein.

The City Bakery, which employs only the best bakers to do the baking, and polite and accommodating ladies to wait upon customers at the sales place, have a new advertisement in today's paper.

A severe cold that may develop into pneumonia over night can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. J. W. McCollum & Co.

E. Paul Brown, a member of the clerical force of the United States land office, left Friday for Chicago, having been called on account of the death of his father. Mr. Brown's numerous Gainesville friends sympathize deeply with him in this trouble.

J. H. Weeks of LaCrosse was in the city yesterday. Mr. Weeks states that his father, D. D. Weeks, who has been residing at Fort Ogden for the past few years, has returned to this section, and will in future make his home in Alachua with his daughter, Mrs. R. A. Turner.

Elise, the infant daughter of Mr. and Mrs. H. W. Toole, 305 S. University street, died Saturday at 12 o'clock, and the funeral was held at 4 o'clock in the afternoon, Rev. S. B. Rogers conducting the funeral services. The distracted parents have the sympathy of the community.

"The Evolution of the Ideal of Women in English Literature," will be the subject of Dr. Farr's lecture which will be delivered at the Twentieth Century Club which will meet Monday afternoon at 4 o'clock, at the home of Mrs. G. K. Broome. A full attendance is urged.

A prominent quartette of Trenton folks who spent Friday in Gainesville were W. H. Gay, B. S. Williams, G. W. Miller and C. C. Drummond. Mr. Williams, desiring to keep posted on matters of interest throughout the county, had his name enrolled on The Sun's subscription list.

Dr. and Mrs. M. E. Schiavone of Micanopy, and P. M. Schiavone of Boardman, were in the city Friday, having been summoned on account of the serious illness and subsequent death of their friend, Mr. R. Dalgre, whom they have known intimately for many years. They feel deeply his demise, as he was to them almost like one of the family.

.. EIGHT ITEMS ..

PHOTOGRAPHY.

Photography today is an economic and social necessity in every community. It maintains the memory and affections of family life through the picture it makes, and which we could not now do without. How often is regret expressed that no picture exists of some friend or relative who is no longer with us! Sometimes, indeed, the camera has to intrude upon the sacredness of the death chamber itself when relatives feel that a photograph in such circumstances is better than none at all. Do not procrastinate. Be wise and "secure the shadow ere the substance fades." You can get a picture from locket to life-size at Smith's Studio.
